THE CODING ZONE
Think Create Code

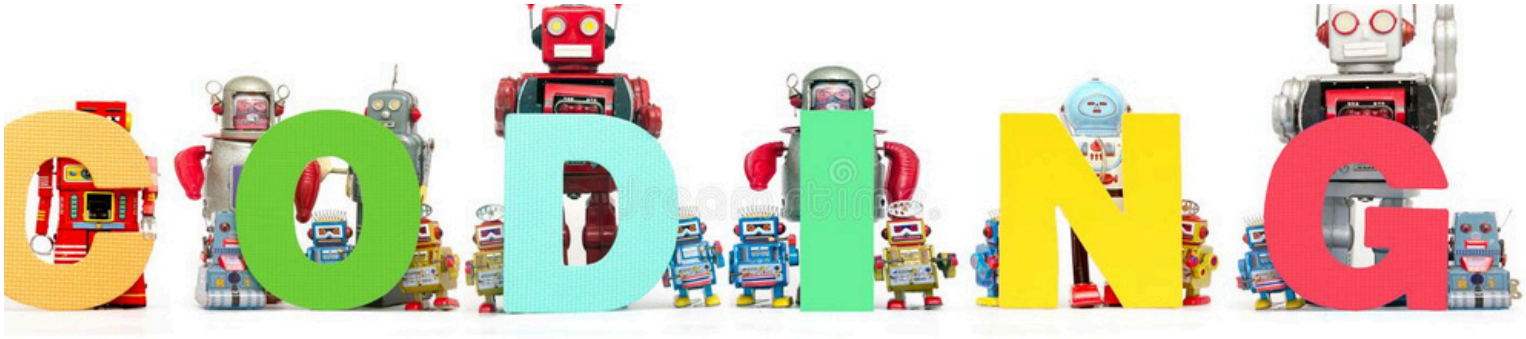

GRADE 9 TO 12 & DIPLOMA

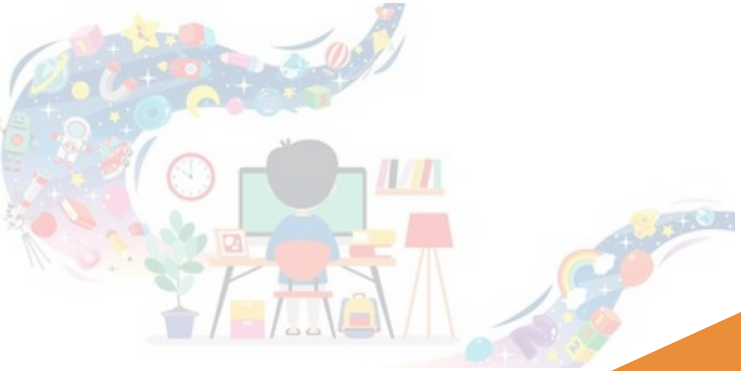

Hello ! Young Coders

Get ready to

Step into the world of

THE CODING ZONE
Think Create Code

About Codingzone

Codingzone is coding platform for kids and teens with a mission to inspire them to fall in love with coding

Coding is proven to develop creativity, logical thinking, confidence building and problem solving skills in teens.

Coding prepare kids for the challenges of tomorrow. Empower them to be the most innovative leaders and innovators among us!.

Let's get started!

Our Vision

To build the largest Coding platform to Empowers Future Leaders

THE CODING ZONE
Think Create Code

Founder's Note

"Coding is a lifelong skill helps to prepare kid's for the challenges of tomorrow. Empowers them at different levels."

Priyanka Desurkar

Founder & CEO

B.E & M.Tech

THE CODING ZONE
Think Create Code

WHY SHOULD KIDS LEARN CODING?

“Coding is the new literacy

The beauty of coding is that it comes in handy in other aspects of life, while allowing kids to express themselves creatively.

Coding allows kids to do anything from writing stories and building video games to making Minecraft mods and designing animations.

Most importantly, the ability to code transforms kids from passive consumers into innovators, with eyes that see every piece of the technology puzzle, not just as a toy but as a way to problem solve and an opportunity to create.

FRONT END DEVELOPMENT

Featured Projects

Todo List Application

Create responsive To-do list application with HTML and CSS

Registration Form

Use HTML to create your own registration form web page

Topic	Sub Topic	Activity/Project
Module 1 Introduction to web Development	What is web development? How do websites work? History of web development Client-Server model (BE vs FE) Setting Up an IDE	 Web development  VS Code & Extensions
Module 2 Introduction to HTML	HTML structure Tags and attributes in HTML Tables Forms Semantic Tags	 Portfolio page  Tables in HTML
Module 3 Introduction to CSS	What is CSS? Internal vs Inline vs External CSS Class vs Id attribute Selectors, Combinators, Specificity Box Model Commonly used CSS properties Display, Positioning Flex, Grid, Media queries how to build responsive website	 Portfolio page with css  Airbnb's landing Page

Think Create Code

FRONT END DEVELOPMENT

Featured Projects

Pokemon Website

Create a Pokémon website with the free pokemon api

Restaurant Website

Create responsive restaurant website with HTML,CSS & Javascript

Topic	Sub Topic	Activity/Project
Module 4 Introduction to Javascript-I	Introduction to JavaScript Variables, scoping, Data type Strings and Numbers Operators and loops Functions, Arrays, Objects Event loop, Closures, Hoisting, Currying	 JS Loops  JS Objects
Module 5 JavaScript ES6	Functions Let vs Const vs Var Template literals Destructuring Spread and Rest Operators Classes	 Realtime Application  JS Functions
Module 6 Introduction to Git and GitHub	What is version control Git vs GitHub Commonly used git commands	 git commands  Version control
Module 7 Introduction to DOM & Deployment	Document Object Model DOM manipulation Events API, eventListener Event Bubbling, Event Capturing Deployment on Netlify	 Netlify  Tic Tac Toe

Think Create Code

PYTHON PROGRAMMING

Featured Projects

Rock Paper Scissors
Learn to create engaging rock, paper, scissors game in Python

ROLL-A-DICE
create a classic rolling dice simulator with the help of basic Python

Topic	Sub Topic	Activity/Project
Module 8 Introduction to Python	Fundamentals of programming & Python, variables, keywords Operators and Data types Conditional statements Loops-while loop , for loop Functions and modules	 Guess the Number  Triangle star pattern
Module 9 Advance Python (Data structure and Object Oriented Programming)	Learn data structure in python List, Tuple, Dictionary, Set Learn OOP's concepts- Classes, Objects, Constructor, Destructor Inheritance, Abstraction, Encapsulation, Polymorphism	 Tic Tac Toe  Password Generator
Module 10 Introduction to Tkinter	Learn to build GUI using Tkinter Window, Widgets Multiple windows	 Calculator  Digital clock

THE CODING ZONE
Think Create Code

PYTHON PROGRAMMING

Featured Projects

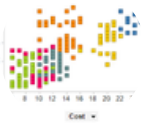

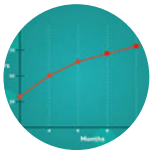

Sentiment Analysis of Product Reviews

Create model that can predict sentiments

Build Image classifier using tensorflow

Create model that can classify images

Topic	Sub Topic	Activity/Project
Module 11 Introduction to Data Science	Learn about basics libraries of python for data science- like Numpy, Pandas, matplotlib Seaborn , plot graphs	 Scatter plot  Bar plot
Module 12 Data Analysis & Visualization	Learn about basics of analysis and basics concepts Learn how to import data visualize it using graphs like line graph, bar graph, pictograph Histogram and scatterplot	 line graph  Data cleaning
Module 13 Introduction to Machine Learning	Get Introduce to machine learning and types of ML Types of data Data Preprocessing Regression	 Linear Regresion  Logistics Regresion

PYTHON PROGRAMMING

Featured Projects

Sentiment Analysis of Product Reviews

Create model that can predict sentiments

Build Image classifier using tensorflow

Create model that can classify images

Topic	Sub Topic	Activity/Project
Module 14 Machine Learning II	Learn about classification algorithms Build your own recommendation system	 Image classification  Recommendation system
Module 15 Python Flask (Deployment Basics)	Introduction to Flask Basic functionalities to create basic web pages. Learn advanced concepts of flask Create your own web application using Flask	 login page  Wikipedia search App

Certification

Unlock Font End Developer Certificate

Unlock Python Programmer Certificate

Unlock Data Scientist Certificate

Unlock AI Programmer Certificate

Happy Kids and Parents of codingzone

Hemill Ravani

Codingzone student
-Australia

★★★★★

CodingZone is an amazing place to learn and explore your coding skills.

Avani Ravani

Codingzone Parent
-Australia

★★★★★

Priyanka mam is a really dedicated coding teacher. She went to great lengths to ensure my son understood the basics.

Sweta Sawant

Codingzone Parent
-Dandeli

★★★★★

Highly Recommended. Amazing place for kids to learn technical skills practically which gives them a head start into the technical world.

Shreyash Sawant

Codingzone Student
-Dandeli

★★★★★

CodingZone is one of the best place to learn coding which has improved my logical thinking,creativity and confidence.

THE CODING ZONE
Think Create Code

Coding: Making kids future ready

Learning to write programs stretches your mind, and helps you think better, creates a way of thinking about things that I think is helpful in all domains.

-- Bill Gates

Whether you want to uncover the secrets of the universe, or you just want to pursue a career in the 21st century, basic computer programming is an essential skill to learn.

--Stephen Hawking
